

CNC operator – experienced or learner/improver

Assisting the Senior Machinist this role is primarily overseeing the 5-axis CNC in operation as well as loading materials on a variety of other woodworking machinery. A mathematical brain and interest in computing would be an advantage as we will be teaching you to program.

Although experience is an advantage we are interested in finding the right person for our workshop.

Essential requirements:

- Some experience of woodworking, CNC or CAD.
- A willingness to learn and good attention to detail.

Full training will be given.

This is a full time position, working 40 hours per week.

Wage from £6.50 to £11 per hour dependent on age and experience.

20 days holiday + Bank Holidays

Please email your CV to piers@dalbergia.co.uk
